DETAILED ACTION

In light of applicant's arguments, the rejection made in the previous office action has been dropped and a new rejection follows.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Harada et al (JP 62-288828 in light of its English language abstract).

Harada et al (based upon a spot translation by a PTO staff member; a full translation has been requested) disclose a silver halide polymerizable photographic material comprising cyan, magenta, and yellow coloring layers, wherein the layers comprise a leuco dye meeting the instant claim limitations for both the properties and structure.
